EDUCATION

Salim Habib University, Karachi

Year :2023 - 2027

(B.S.) Computer Science

DJ Sindh Government College

Year :2021 - 2023

HSC Intermediate – **Percentage 79%**

Karachi Public School

Year :2019 - 2021

Science, Matric – **Percentage 95%**

PROFESSIONAL SUMMARY

I'm a web developer who really enjoys working on modern, interactive websites. I focus more on frontend using tools like React.js, Next.js, Tailwind CSS, GSAP, and a bit of Three.js to create smooth and creative user experiences. I've also worked with MongoDB for backend tasks like managing data and building login systems. I keep learning new technologies to improve my skills and build better, user-friendly web apps.

PROJECTS

Attendance Management System (Next.js, MongoDB)

- Developed a role-based login system allowing instructors and students to securely access and manage attendance data.
- Implemented CRUD operations with MongoDB to efficiently store, update, and retrieve attendance records in real-time.

GSAP & Three.js Practice

- Practiced recreating animations from modern websites using GSAP to master scroll-triggered effects, smooth transitions, and interactive UI elements.
- Explored Three.js and React-Three-Fiber by building small interactive 3D scenes, enhancing understanding of WebGL and 3D graphics integration in web apps.
- Focused on combining animation libraries with frontend frameworks like Next.js and Tailwind CSS for performant and visually engaging user experiences.

Basic Web Development Practice Projects

- Built small-scale applications like **Quiz App**, **To-Do List**, and **Netflix Clone** to strengthen core concepts in HTML, CSS, and JavaScript.
- Practiced responsive design, state management, and component structuring using React and Tailwind CSS.

TOOLS AND TECHNOLOGIES

- **Languages:** JavaScript, C, Java
- **Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, GSAP
- **Backend & DB:** MongoDB, MySQL
- **Other Tools:** VS Code, Figma, Postman
- **Soft Skills:** Problem Solving, Communication, Leadership, Teamwork
